**Old topics:**

New website- Cindy asking for Lynn to provide the \$\$ spent on what for the existing web site. Cindy has built a new website for us however she couldn't pull it up during the meeting.

- Lynn will provide the receipts, and Cindy will contact the customer support for our current website to ask for an itemized list of what we paid for.
- Future estimates and considerations:
  - We'll need to pay for the server annually approx. \$125
  - We'd need to pay for our domain name approx. \$25
  - Has NYCRGC.org been trademarked?
  - What about security on the new website?
  - When are the 'dues' do for our existing website? That determines when we need to have our new site available.

**Facebook usage**

The consensus was anyone can post to it and/or tag the page to bring additional traffic to the site.

I reached out to the member thought to have created the original page; however, he said that he was only an administrator and cannot dismantle it.
